

Gears are fine -
good speed for
now.

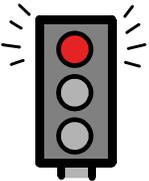

I am putting on
my brakes.

I am changing gears
and slowing down.

I need to Stop and
wait. I am in
control and I
am safe because I
stopped and I am
waiting.

What Can I Do?

Stop in a safe
place & Wait -
cool off my engine

Slow Down:
Put on the brakes
adjust speed

Keep it up!
Safe speed.
